## **Re: Introducing a NEW brand of Orchestral Stringed Instruments**

*Sonoro Sempre* <sup>tm</sup> & *Arcofacile* <sup>tm</sup>

**– beautiful music making, right there in your hands!**

***Dear Purchasers of Musical Instruments!,***

### **Re: Introduction to our Opportunities Scheme for Young curious Music Makers and their Parents**

**Enclosed is GDFViolins' Opportunities scheme** to work along side teachers, private freelance teachers and academies free to make autonomous policies regarding developing young students education, which involves learning and exploring the subject of *music*.

***Dear music teacher this is a structured initiative for the teacher to offer the parents*** with confidence an exciting new range of Orchestral Stringed Instruments branded as **Sonoro Sempre** at very affordable and set-up **R T P ready to play - Violins, Violas & Cellos**. These two ranges – **Stratifie** (veneered laminated) and **Etudiant** (the classic solid wood spruce and maple) instruments ready to take your teaching and demonstrate through keen confident playing what can be achieved at the beginning stages. Indeed, the Etudiant model would easily take a student through their grade III exams and allow them to then consider an upgraded instrument that can easily come from GDFViolins&Accessories in the future.

***The Info-Pack contains*** all the sales sheets for these models – **Stratifie** and **Etudiant** and all pricing you need to offer the parents. Indeed the parents will see with some guidance from yourself, the buying prices for the instruments aimed at providing an OFT (Outfit) and there are sizing guides for you both to discuss and 'factory-fitted' accessories from the maker of these instruments, so replacing accidentally broken strings in any size is easily available.

***Also well designed essential players' accessories*** include:- **Arcofacile** Shoulder rests both plastic, polycarbonate and maple, electronic string tuner (a G-LT33 will be sent out free with your first order for trying) for all three instruments with multi-instrument function (violin, guitar, ukulele, bass, chromatic – for Viola & Cello) Cello spike non-slip holder, and an affordable choice of 'the next bow' in either carbon-fibre or high quality selected Brazil wood. But please already be assured, as a player myself, I want as best as possible the bow already for the young student, which you will find in the OFT case.

***As the teacher reads further on into the info-pack*** they will see information on their buying prices for the instruments, keeping this price list very compact to the instruments here for the young players. Your buying prices are shown however, should you have reasonable quantities to order I will be happy to quote you 'for the package' of instruments. All the **Arcofacile** accessories will also receive a good discount, with postage needed to be considered. There is also a string upgrade guide for the GDF Arcofacile ranges of strings to consider. **Please use copies before completing a totals order!**

***This info-pack that I have sent you is the perfect opportunity*** to engage with the students of a school keen to independently boost music as a highly beneficial way to increase child satisfaction and overall results at their school.

***This is a very achievable range and scheme*** whereby also some margins are easily available to the teacher for participating and all the possible extra time and collaborations involved (parents discussions, visits to the head of the school etc..) to secure such an exciting up and working scheme of Young String Playing Opportunities!!

***To sum up here's why forming an arrangement with GDF Violins & Accessories*** will bring a lot of achievement, success and recognition from you as a teacher of music:-

1. From a committed supplier GDF of these quality Chinese student instruments, from a highly trusted maker offering astonishing value and lovely playing tones everytime!
2. Lovely instruments all **RTP = Ready To Play** as a quality outfit with case, bow and rosin.
3. The **RTP** is a great feature for music teachers who may not be string teachers more so as to tuning in the strings and showing how easy it is for the student will save a lot of time and allow you to confidently get started into the first lessons. Please see the info enclosed about **SonoroSempre – Best set-up and protocol** info - two pages enclosed.
4. It's a completely supported scheme aimed to give the **wider opportunities** to all families and to really give the intended school a **viable chance to finally set up the music making and teaching arrangements**.
5. There is a **very useful factory fitted accessories guide** that will again keep all replacement costs under control with the option to buy all other essential playing accessories. *Why use a sponge and elastic band* when for as low as £6.50 or even less with quantity, the superb FOM adjustable shoulder rest will cover from 1/8 to 4/4 in 3 models.
6. At GDFViolins, we are always striving to add genuinely improved products to the range.

As an exclusive, coming soon is the very popular Violin Flex polycarbonate shoulder rest but for Violas up to 17"!! – ok not for children but this means a 15" and 14" model is also offered ;-))

*I'm personally talking to a maker of a specially designed chair by a collaboration of a Violinist player and ergonomics furniture designer and mechanical engineer in Europe. So watch this space, ok my web-site for news!!*

The instruments are in very good order yet if you look at the full **Etudiant** range (from £139 SRP) you will see **three more entirely different models (a German, Japanese & Beijing)** all within the **Entry Level category** for student's parents able to go up the tonal quality a little to explore the playing of these models. And then we go into **Intermediare** (Intermediate) models.....*another wonderful world awaits you!*

7. **GDFViolins** is very serious about aiding and developing better young players from all backgrounds whether a charitable sponsored arrangement, ICK projects and all schools **and** just to look at our entirely **NEW** web-site will show you what we are trying to do at the first stages.
8. We will develop the student market and will also **support our family music shop and violin specialist shop partners** in your locality.
9. Once you see the quality, play them and see the **Stratifie** prices you will be very happy with what you are about to advise parents to purchase or purchase for yourself and any existing groups you are forming. **Stratifie** Violin OFT @£69.00, Viola model OFT from @£89.00, and the amazing ESTC Cello OFT soft-bag from @£279.00

***I'm looking forward to your enquiry and coming to see you with all of these instruments for you to play and decide for your self that you really have found some of the best possible 'tools' for your next teaching mission!***

With my best regards,
